Glucosamine HCl + Chondroitin

Introduced 2004

What Is It?

Shellfish-free glucosamine HCl and chondroitin sulfate are combined to provide a convenient and simple dual-strength support for healthy joint motility and function.*

Uses For Glucosamine HCl + Chondroitin

Cartilage Composition: Glucosamine promotes the synthesis of the glycosaminoglycan chondroitin. Studies have indicated that glucosamine HCl has the ability to support healthy cartilage integrity, in part by maintaining healthy matrix metalloproteinase (MMP) enzyme activity. Chondroitin sulfate is responsible for building the ground substance of cartilage, molecules known as proteoglycans. In addition, it maintains healthy enzyme activity in the cartilage matrix, supporting cartilage integrity, and may provide synergistic support when combined with glucosamine.*

Joint Motility and Function: Studies suggest that the combination of glucosamine HCl and chondroitin sulfate have positive effects on joint mobility and comfort.*

What Is The Source?

Glucosamine HCl is manufactured in a proprietary process to produce a shellfish-free glucosamine supplement. Its production involves corn fermentation, which produces chitosan as a byproduct. The chitosan is extracted and processed to achieve glucosamine HCl. There is no allergenicity, as no corn protein or DNA are present in the fermentation product. Chondroitin sulfate is derived from bovine cartilage. Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil.

Recommendations

Pure Encapsulations recommends 3 capsules daily, in divided doses, with meals, or as directed by a health professional.

Are There Any Potential Side Effects Or Precautions?

Rarely, ingredients in this formula have caused mild gastrointestinal symptoms, such as abdominal bloating, diarrhea or nausea. If pregnant or lactating, consult your physician before taking this product

Are There Any Potential Drug Interactions?

This product may be contra-indicated with certain blood thinning medications. Consult your physician for more information.

Glucosamine HCl + Chondroitin

each vegetarian capsule contains  00

glucosamine HCl (shellfish-free)	400 mg
chondroitin sulfate (from bovine)	300 mg
ascorbyl palmitate (fat-soluble vitamin C)	10 mg
other ingredients: vegetarian capsule (cellulose, water)	

3 capsules daily, in divided doses, with meals, or as directed by a health professional.
